

SAY!

(By CHARLES J. ARNOLD)

Of course you are going to Crawfordsville Saturday to root for ol' DePauw in its annual football game with Wabash. Remember, we won last year on the home lot and this year we want to win on the "away from home" lot. Two wins in a row would be mighty nice.

There is some talk, I understand, of each Wabash and DePauw severing football relations with Butler. As I get it from both members of the DePauw squad and from spectators who had "ring side" seats, the conduct of the Butler team members, in their game played in Greencastle, was most obnoxious. Profanity and obscene language during the game and during "time out" periods, it is said, was most distasteful. If the Butler college football team insists upon such conduct, then, action should be taken to suspend athletic relations with that school. Profanity and obscene language are not at all necessary to good football and certainly are obnoxious to spectators and members of the opposing team.

It was in fear and trembling that I went to the country home of Ott Webb, Tuesday morning, to fulfill my promise to join him in a quail hunt. But, to my surprise, I never was more royally entertained than I was by Mr. and Mrs. Webb. After spending a delightful morning missing shots in the woods I was a guest of Mr. and Mrs. Webb at a delicious chicken dinner. And, although my marksmanship during the early hours of the day was poor, I came to my own at dinner time and if I missed anything on that dinner table, I am mistaken. Ott wanted me to go hunting again after dinner, but I was satisfied with what I already had acquired, and not having lost anything that I knew of, I refused to leave the comfort and coziness of the living room until I was ready to leave for home. And now, Ott insists that all I went out to his house for was to get dinner and that the hunting trip was nothing but a sham. Well, what ever it was, I am satisfied and I'll bet he will agree with me that as a hunter I am one mighty good "boarder."

MAN WHO PASSED
RAISED BILL

EVERETT HARRIS, FARMER SAYS HE DOES NOT KNOW WHERE HE GOT COUNTERFEIT \$5 BILL. PASSED AT KOCHER RESTAURANT—FACES FEDERAL CHARGE

Everett Harris, farmer, residing on the farm of Harry Brown, north of Greencastle, is to be interviewed by Charles Mazy of the U. S. Department of Justice, concerning a \$5 counterfeit bill which he passed at the W. F. Kocher restaurant here Saturday night. Harris with Mr. Brown, called on Postmaster E. R. Bartley yesterday, stating he did not know where he got the money and that he did not intend to pass it after learning it was counterfeit.

Harris sought intervention with Federal authorities but was refused. Postmaster Bartley, however arranged for an interview between Harris and Federal agent Mazy who was here over the week end investigating the case.

Harris said he presented the bill at the Star Barber Shop, Saturday and asked them if it was any good. Nelson Taulman, barber, refused to accept it. Harris then said he went to "Hole in the Wall" where he unintentionally presented it in payment for food.

Federal agent Mazy will question Harris regarding the source of the raised bill and on the basis of his questioning will determine whether to arrest Harris. In the event Harris does not give satisfactory explanations of the counterfeit money he undoubtedly will be taken to Indianapolis for arraignment in federal court.

The raised bill was a crude piece of counterfeiting and easily detected. Corners had been cut off a \$1 bill and corners of a \$5 bill were then pasted on these corners, only the \$5 corners being shown by the person passing the money.

HUGE SUM SPENT BY PUTNAM COUNTY FOR ROADS AND HOSPITAL MAINTENANCE—COUNTY AUDITOR REVEALS COSTS

Bonds and coupons due in the fall of 1929 have cost Putnam County taxpayers the total of \$90,383.86, according to figures disclosed today by County Auditor W. E. Gill. The above amount due, November 15, has just been paid by the county auditor.

This huge amount is for the construction of roads in this county and for the county hospital maintenance, the auditor said.

This sum is due twice annually making the total costs of road improvement and maintenance in this county a staggering amount. The total sum of over \$180,000 is approximately one-fifth of the taxes collected annually in this county for all purposes.

TERRE HAUTE
STORE LOOTED

TERRE HAUTE, Nov. 20.—(INS)—Police today were searching for two bandits who last night leisurely robbed Mason's jewelry store of \$25,000 in diamonds, watches and currency while Clay Alderry, manager, was trussed up.

The masked men hid in an adjoining store, bored a hole through the wall and entered the jewelry store. When the manager came to remove jewels from the window and put them in a safe, the robbers overpowered him and bound him. Then for two hours, they carefully selected jewelry difficult to identify.

Alderry said he believed two women sitting in a sedan in front of the store were watchers for the bandits.

KINAPED BABY IS

NEW YORK, Nov. 20.—(INS)—Somewhere in the greater city today a kidnaper was holding a frail three months old baby that will die unless it is kept on a special diet.

The child, Donald Larney, was stolen from his carriage as it stood in front of a Brooklyn department store.

Newspapers printed a message to the kidnaper describing the diet and the method of feeding the child.

SINCLAIR TO

IN JAIL TONIGHT

MILLIONAIRE OIL MAN HAS SERVED AS PRISON PHARMIST DURING TERM—WILL SPEND FEW DAYS AT STABLES IN NEW JERSEY

WASHINGTON, Nov. 20.—(INS)—Warden Peake down at District Jail was in the market for a new pharmacist today.

Some time about one minute after midnight tonight, he's going to lose probably the toniest drug clerk that ever rolled a pill behind the bars of his jail house.

For today is Harry Ford Sinclair's last day in durance vile, as the saying goes. Any time after the stroke of twelve tonight, the millionaire oil baron and sportsman is free to leave the big red house down on the river flats, and it was considered a pretty good bet he wouldn't dally on the way out.

Sinclair has been a prisoner in the district jail since May 6, serving out the time imposed upon him, first, for contempt of the senate, and later, for contempt of the district supreme court. He got three months on the first count, and six on the second, which involved the hiring of detectives to shadow the jury that sat in his mistrial on conspiracy charges. Time off for good behavior is springing the prison door for him in advance of Thanksgiving.

According to tentative plans, Sinclair will motor from Washington direct to his elaborate stock farm in New Jersey for a few days of rest. This is the farm known to race track followers the country over as the Ranecous Stables.

Complete relaxation in the welcome great outdoors will not be long for Sinclair, however. He had thought of taking a trip around the world, but the recent antics of the stock market have forced that pleasant idea out of his head. He is going back to Wall street and pitch in again as the active head of his many oil companies and their subsidiaries.

DRY MEMBER
OF CONGRESS
IS INDICTED

REP. DENISON, OF ILLINOIS CHARGED WITH VIOLATION OF LIQUOR LAWS IN BILL RETURNED IN WASHINGTON

THIRD MEMBER INVOLVED

Friends Maintain Innocence—Voted for Jones Dry Law—Others Were Exonerated

WASHINGTON, Nov. 20.—(INS)—Indictment of Rep. Denison (R) of Illinois, a leading dry, for violation of liquor laws, shocked congressional dries today and threatened to precipitate a new prohibition war immediately after congress launches its regular session December 2.

Although Denison's friends maintained confidence in his innocence and congressional courtesy forbids mention of his name on the floor, the indictment is the culmination of a series of prohibition accusations acutely affecting congress.

Taunted by its own members and charged with harboring "wet drinking, dry voting" legislators, the house has seen three of its number involved in prohibition cases within the last year.

The broad assertion of Senator Gillett (R) of Massachusetts that he saw members of the house transacting business on the floor while intoxicated has aroused militant dries who may rise to defend the house's reputation in the new session.

Denison, is was pointed out, is the third house member who voted for the Jones "five and ten law" to be involved in an alleged prohibition law violation.

Rep. Michaelson (R) also of Illinois was indicted on a charge of bringing liquor to Florida from Cuba. He was acquitted, but a brother-in-law was found guilty.

Customs employees in New York alleged that Rep. Morgan (R) of Ohio, brought liquor back from Panama last year, but he was exonerated after investigation by prohibition officials.

The arrest of George Cassidy, the "man with the green hat," at the doors of the senate office building recently also brought the question of "personal prohibition" home to congress. Previously Cassidy had been arrested in the house office building.

Conviction of John W. Langley, while serving as congressman from Kentucky, for conspiracy to violate the liquor laws, was also added to the names of dry congressmen who have run afoul of the law they voted for.

During the last session Rep. Black (D) of New York threatened to expose "wet drinking, dry voting congressmen" but the exposure was postponed.

Already Senator Sheppard (D) of Texas and Senator Harris (D) of Georgia are preparing prohibition moves which will bring both senate and house into quarrels over the law again.

The proposal of Sheppard to make the buyer of liquor as well as the seller subject to prosecution already is being attacked by the wets, and there is considerable opposition to it among the dries.

Harris is expected to demand additional appropriations for enforcement of the dry law, coupled with an attack upon the prohibition regime of the Hoover administration.

Mrs. Florence Kahn, Republican congresswoman of California, and other house members, are preparing to renew their demands that congress indemnify the families of innocent persons killed by dry law officers. The movement was inaugurated by Mrs. Kahn after the killing of Henry Virkula in Minnesota by customs officers.

Coach W. L. Hughes of DePauw is in Indianapolis today where he will speak at a banquet for the football team of Washington high school.

PROSPERITY
COW CIRCLE
IS ORGANIZED

JOINT ENTERPRISE OF FARM BOYS AND SEASONED FARMERS LAUNCHED UNDER DIRECTION OF M. M. BASSETT, LOCAL AGRICULTURAL TEACHER

The first joint enterprise of farm boys and seasoned farmers engaged in dairying in Indiana has been organized here by H. M. Bassett, instructor of vocational agriculture at Greencastle high school, in collaboration with R. H. Stevenson, agricultural agent of the Central National Bank here, and the Blue Valley Creamery Institute.

The project is known as the "Prosperity Cow Circle," and was devised to provide Greencastle farmers with an accounting system for their dairy herds, while giving vocational agriculture students an opportunity to demonstrate the practical value of their learning.

Each farmer who is a member of the "Circle" receives a visit from a school student at regular intervals, who examines the milk records of cows on the farm, weighs the feed for each animal, and takes samples of milk for butterfat tests in the school laboratory. The results are tabulated at the end of a stated period to indicate profit or loss and the entire system in use at any given farm is discussed at meetings of farmers and students. No charge is made for student services.

Practical understanding of farm problem for the students and greater efficiency on dairy farms as a consequence of applying modern methods are expected to result from the "Cow Circle." The benefits of such work, under the supervision of vocational agriculture teachers, have already been demonstrated in several other dairying states.

RIDDLE CASE
TO JURY EARLY
THIS AFTERNOON

The case of the State of Indiana against Roy Riddle, young Jackson township farmer, charged with drawing and threatening to use a shotgun on W. W. Key, also of Jackson township, on November 8, went to the jury early this afternoon following final arguments by Prosecutor Marshall Abrams and defense attorney F. S. Hamilton. Each side was given thirty minutes for closing arguments.

The state alleged that Riddle threatened to use a shotgun on Key following an argument over a right-of-way across Key's land. It was alleged that while Key and a tenant on his farm were patching up a fence supposedly torn down by Riddle the defendant came along with a shotgun and threatened to shoot Key and his tenant "to pieces" if they didn't get away. The fence is supposed to have blocked a right of way used by Riddle. Key and Riddle occupy adjoining farms in Jackson township.

The defense used several witnesses in an effort to prove that Riddle did not threaten the prosecuting witness Key, with a shotgun. Only two witnesses were put on the stand by the state.

Jurors who heard the evidence were Ivan Ruark, Frank W. Lane, Edgar Hurst, George Walker, Shelby Moler, Frank Farmer, W. D. Wright, George Hill, Robert Detro, Howard Harris, John Reynolds and Otis Matthews.

NINE STUDENTS ARE EXPELLED

CHAMPAIGN, Ill., Nov. 20.—(INS)—Nine students today had been ousted by University of Illinois authorities as a sequel to a raid on the Gamma Eta Gamma fraternity house Sunday which netted twelve gallons of liquor.

The University's department of administration announced its action last night after considering the cases of more than a score of students involved in the raid on the rum ring.

Eight of the students dismissed in connection with the chapter house raid were members of the fraternity, an organization comprised of legal students.

One co-ed whose name was not divulged was also ousted for participation in a drinking party. Further dismissals announced by the disciplinary body brought the day's total to twenty-two. This was said to be the most sweeping action ever taken by the council of administration.

The fraternity was ordered to show cause why it should not be disbanded. Meanwhile the surviving members of the chapter are taking action to drop Milton J. Sherman from the roll. Sherman pleaded guilty to a possession of liquor charge Monday and was fined \$500.

J. E. Webb of Geneva, Ill., was likewise dismissed for his alleged purchase of quart of liquor from a "man in a fur coat" at the fraternity house.

The teachers and officers of the Christian Church Sunday School will meet at the church Thursday evening at 7:45 o'clock.

DOUBTS POWER OF SERVICE COMMISSION

INDIANAPOLIS, Nov. 20.—(INS)—Calvin McIntosh, members of the public service commission, said here today that he was so uncertain of the legal power of the public service commission to authorize the proposed \$70,000,000 merger of Insull owned utilities in Indiana that he had asked Attorney General James M. Ogden for a legal opinion on that point.

McIntosh questions whether the section of the law allowing transportation lines that intersect and utilities in the same locality of similar nature to merge is broad enough to cover the proposed wholesale combination of the Insull properties.

The commission on Dec. 2 will begin hearings on the proposed merger which will affect more than 200 companies scattered about 38 counties and said to concern two-fifths of the population of Indiana.

Greencastle is among the larger cities involved.

E. B. Shoemaker of Cloverdale was taken to the Evansville State Hospital Monday by deputy Sheriff Alva Bryan. The deputy was accompanied by William Bryan and Walter Lear, the latter visiting his son Paul Lear, who is showing much improvement after two week's hospital treatment.

COLD WAVE HITS WEST

CHICAGO, Nov. 20.—(INS)—Slight snow accompanied by a drop in temperature fell in Chicago and adjacent parts of the middle west today and was expected to continue until tonight.

DENVER, Nov. 20.—(INS)—Temperatures were sent tumbling to zero and near-zero as much of the Rocky Mountain region today still was in the grip of a storm which swept down from the crest of the continental divide to the north yesterday.

In Wyoming, zero weather and four inches of snow was reported at Lander, Sheridan and Laramie.

Ice and sleet contributed to hard ship in Montana.

The temperature dropped to 10 degrees in Denver, which was blanketed by its seventh snowfall of the season and little change in temperature was promised as the storm moved southward into New Mexico.

Western Colorado, western Kansas and Nebraska were visited with light snow, but the mercury tumbled lower at these points than where the snow fall was heavier.

Farmers throughout the region who have been unable to harvest their sugar beets because of recurring snow storms, were further delayed in harvest work by the present storm.

Cars driven by Earl Taylor and D. B. Johnson, both of Greencastle, were slightly damaged last evening in a collision at Vine and Washington streets. No one was hurt in the crash. City Marshal Paul Grimes investigated.

The phrase "I've Graduated to Camels" originated with a Camel smoker. It expresses the experience of millions who through Camels have learned to know real smoking pleasure.

As taste in smoking develops, it naturally leads toward better quality. New smokers may not be critical but when they once experience the true mildness and surpassing fragrance of the Camel blend, they realize that here is a real superiority. It is for smokers of such discernment that Camels are made . . . for them the choicest tobaccos are selected . . . and this quality is maintained for the millions who know genuine smoking pleasure.

It's time to CHANGE to winter grades

WINTER is near.

Is your car ready? Three steps are necessary to put your car in shape to meet the heavy demands of cold weather driving.

- 1—Change the lubricant in the differential and transmission, using Polarine Transmission Oil (Winter) or Iso-Vis Lubricant (B).
- 2—Have the chassis thoroughly greased.
- 3—Flush the crankcase with Polarine Flushing Oil and refill with winter grade of either Iso-Vis or Polarine recommended for your car.

For quick service use air mail

These three steps are vital to the good conduct and smooth operation of your car this winter.

Iso-Vis and Polarine meet every winter need. They maintain their viscosity and lubricate thoroughly at any operating temperature. They're highly refined and scientifically correct for all motors.

If you use Polarine—drain the crankcase every 500 miles for maximum efficiency and economy. If you use Iso-Vis, the constant viscosity oil—you can drive a thousand miles or more without changing, for Iso-Vis wears and wears and wears.

TRESTER PROBES REFEREE'S CHARGE

Following the hearing, Trester said the board would make its decision in the case at its regular meeting next Saturday at Bloomington. Lebanon high school officials did not know of the protest until invited to attend the hearing, and said it in no way involved relations between the two schools, being a matter between the official and the Thornstown team. DOODY SENTENCED

CHICAGO, Ill., Nov. 19.—(INS)—Judge Otto Kerner in the criminal court this afternoon denied a plea for a new trial and sentenced Willie Doody, alleged notorious bandit and murderer, to die in the electric chair for the slaying of chief of police Charles Levy of Berwyn, suburb.

Date of execution was set for December 13. As sentence was pronounced, tears filled the eyes of the miniature defendant who was found guilty by a jury of killing Levy while on a robbery tour.

JOINT RECITAL PLEASES MANY

The joint recital by Professor Van Denman Thompson, organist, and Miss Edna Bowles, contralto, both of the faculty of the DePauw university School of Music occasioned a large gathering in Meharry Hall last evening. These faculty recitals have been proving most attractive this season and it is quite evident that they are thoroughly enjoyed by the audiences.

A joint recital by an organist and singer provides plenty of variety and color, and that of last evening was of special interest on that account.

Professor Thompson is so well known and deservedly popular among the people of this locality that it might almost be unnecessary to add words of praise for his abilities. However, a stranger, hearing him for the first time would not fail to be impressed with his mastery of the instrument and with the breadth of his conception of tonal color, and the delicacy of the nuances. As he sits there at the console, quietly and entirely without affectation, one almost feels that there is music at his command, which enables him to bring forth music so eloquently and beautiful. And when he has finished, his audience has the feeling of regret that it is over.

Miss Bowles' selection of songs provided her with an opportunity for dramatic as well as lyric expression. Though somewhat handicapped by a slight cold, it is doubtful if her audience could detect this handicap, so admirably did she make use of her technique. She was exceptionally good in the "Traveme" by Wagner, and in the "Erking" of Schubert, in which her sense of the dramatic and her command of tone color were most effective. Again, in lighter vein "The Cunnin' Little Thing" by Hageman revealed a new mood which pleased her audience with its whimsicality. The final number, "Margen" by Strauss, was a fitting climax to an excellent program. In this number Miss Bowles had the assistance of Miss Louise Palmer Walker, violinist, and Professor Thompson at the organ. Starting slowly with beautiful sustained tones by the violin and organ as a sort of prelude the voice blending beautifully in delicate tonal color, entering quietly, almost inconspicuously, pass off into a quiet ending rich in its very restraint. This final ensemble number was tremendously effective and the three artists were applauded generously until they were obliged to repeat it.

Professor Thompson accompanied Miss Bowles at the piano, provided at all times a background of just the correct balance of shading necessary to bring out the full content of the songs. Especial praise should be made of his accompaniment to the "Erking" which is considered perhaps one of the most difficult accompaniments in all the literature of songs.

RUSSELL FINNEY SHOT IN FOOT BY OLD RIFLE

Russell Finney, son of Mr. and Mrs. L. H. Finney, was wounded in the left instep last Friday afternoon when a .22 rifle which he was handling was accidentally discharged. The ball lodged in the bone in the instep turning so that it lies crosswise. The lad hurried home and told his parents of the accident. He was rushed to Lake View hospital at Danville after X-ray pictures of the injury had been made by Dr. Holly of Attica. Inasmuch as it would be necessary to break the bone to get the bullet out, the physician in charge has decided to leave the missile in the bone. The wound is healing nicely and Russell as expected home soon. The gun was an old rifle with a sawed off barrel which the boy had traded for and was carrying purely out of boyish curiosity. — Williamsport Pioneer.

SENATOR WATSON IS REGAINING HEALTH

Senator James E. Watson, Rushville Republican floor leader in the United States senate, now in Florida for a rest before the strenuous December session of Congress begins, is rapidly gaining strength and has been greatly benefited in health, according to a statement from him.

Although his trip is primarily for rest and recreation, he has found time to visit many cities along the east coast, also back country, and to call on old friends from Indiana. He left Palm Beach Monday for Tampa, and after stopping at a few other cities on the west coast of Florida expects to return to Washington. He is accompanied by Mrs. Watson and Mrs. John Mock, a cousin of Bluffton.

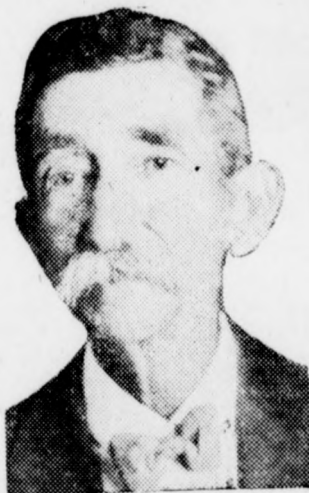

At West Palm Beach the Indiana senator renewed acquaintance with Bert Winters, formerly of Lebanon, prominent Florida attorney. Mr. Winters accompanied him on a motor trip to Miami, where he called at the United States District court to pay respects to Judge Halstead.

H. L. Ritter, another friend and Frank B. Shuttis, publisher of the Miami Herald and a senior member of the firm of Shuttis and Bowen, attorneys visited Senator Watson at West Palm Beach. Judge Ritter, formerly of Indianapolis and Mr. Shuttis whose home was Aurora, were classmates at DePauw University, where Senator Watson attended. The three men are friends of long standing.

Senator Watson has refused all invitations to speak and has avoided newspaper interviews adhering to the program of rest prescribed by his physician.
